The Delaware County Envirothon is a fun, annual academic event where high school students can learn more about Aquatics, Forestry, Wildlife, Soils & Land Use, and Current Issues. We are a local part of one of the largest environmental competitions in North America. Teams of **five students**, grades 9 through 12, compete against other Delaware County High Schools in the five subject areas.

Study materials and various publications are provided to educators to help their students prepare for the event. High Schools who currently participate develop teams in various ways such as: environmental clubs, incorporation of material into classroom activities, as a reward for students who perform well, or a host of other methods. Written tests are developed by the Pa. Fish & Boat Commission, Pa. Game Commission, DCNR - Forestry, and the U.S.D.A. Natural Resource Conservation Service. These tests are utilized Statewide in nearly every County to qualify for the State Envirothon Competition.

Annually since 1993 we have held our local Envirothon. We are proud that we have been the first stop for Penncrest High School on their way to three Canon North America Envirothon Championships. Penncrest also has seven State Envirothon victories.

SPONSORSHIP PROGRAM

Gold Level \$ 500.00

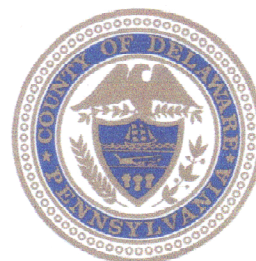

Recognition Wall Plaque for you to Display .
Prominent Name or Company Logo on Event T-shirt
